**Volume I**

**—1955**

**HIGH SCHOOL, Annandale, Virginia**

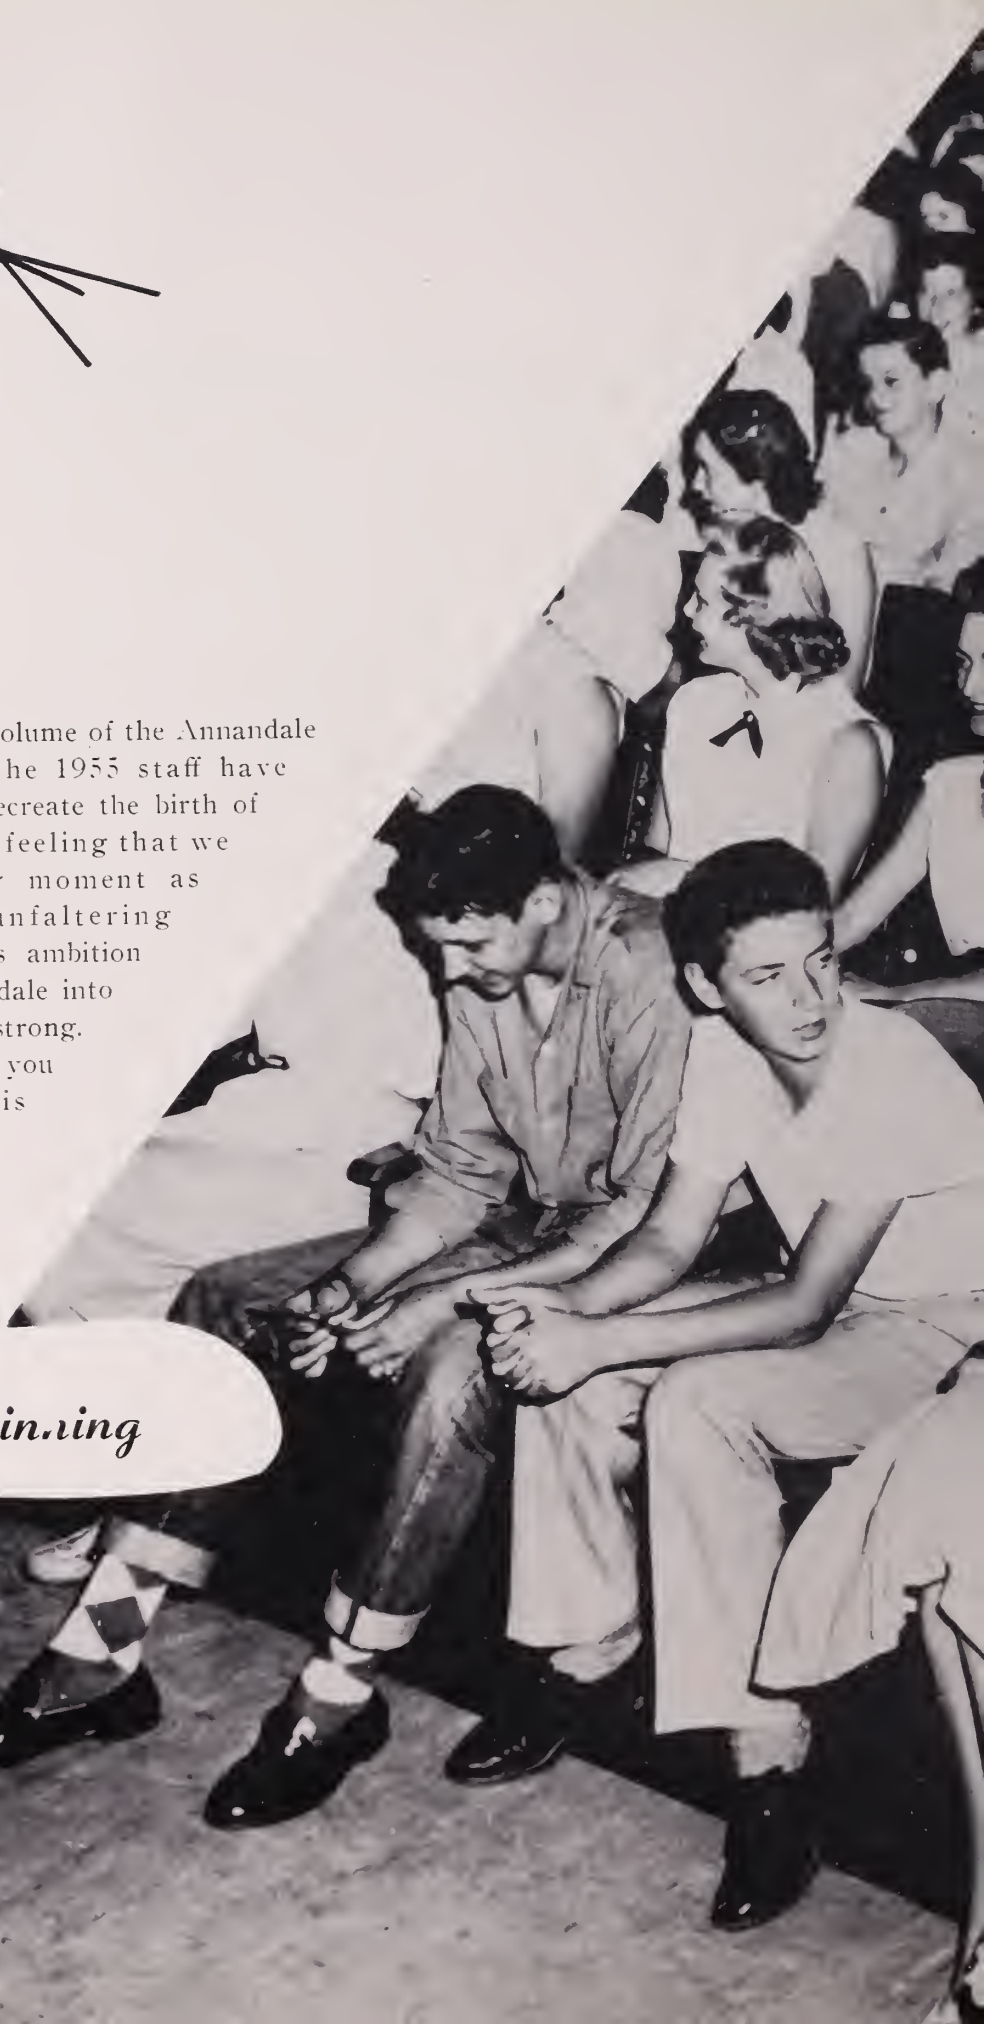

In this, the first volume of the Annandale Antenna, we of the 1955 staff have sincerely tried to recreate the birth of Annandale High, feeling that we will relive every moment as you with your unfaltering spirit and ceaseless ambition transformed Annandale into a city alive, 1,000 strong.

In years to come as you glance through this yearbook, we sincerely hope that you will recall Annandale as it was

# Dedication

We, the students of Annandale High  
with much pride and appreciation  
dedicate this first edition of the  
Antenna to one whose name  
is synonymous with  
Understanding, Help, and Genuine Interest.

Our Principal

Ralph E. Buckley

with the sincere hope that it  
may express our deep gratitude to you ...  
An able and enthusiastic administrator  
An unselfish and untiring worker  
Our inspiration and our guide  
And most of all

OUR FRIEND

MR. RALPH E. BUCKLEY

In the beginning . . . . .

Fairfax County purchased a site of about twenty-two acres on Ravensworth Road for \$22,196.50 from Mr. and Mrs. Gareth M. Neville on October 26, 1951. This was the first real step toward the dream of a high school at Annandale.

After all the plans had been made, the problems of how to finance it was studied. Federal funds allocated amounted to \$850,000. Fairfax County set aside \$821,518.65 for construction only. The total cost of the original building was \$1,661,518.64.

After funds were in sight, construction was begun with the Black Construction Company as the contractor.

As work progressed it became evident that the building could be completed for the opening of the 1954-55 school term if the work were rushed.

And so on that memorable day, September 1, 1954, former students of Fairfax and Mount Vernon High Schools entered the doors for the beginning of Annandale High School.

From the start it was evident that every nick and cranny was filled and there would be no room for the incoming eighth graders and new pupils. Again thoughts turned towards construction. This time the contract for a twelve-room addition was let to the Wayne Construction Company on December 2, 1954. The completion date was set for August 1, 1955. The cost for the addition is \$162,691.20, bringing the total cost for the entire building to \$1,824,209.84.

The day our cafeteria finally opened was a red-letter day at Annandale. Sitting around a table and enjoying a hot lunch with our friends made our school days much more pleasant and productive. All the credit goes to Mrs. Stevens and her fine staff for their efforts to give us delicious, well-balanced meals. We, the students would like to say "thanks."

*... their help we needed ...*

Wasn't it refreshing to come into a clean building each morning with no trace of yesterday's mistakes visible? The efforts of our energetic custodians has made Annandale one of the cleanest, best-kept schools in the area.

To you, Mr. Dodson, and all your staff, we wish to say "thanks".

One of the greatest assets to Annandale High School this year was the Student Parent Teachers Association.

Not only did this organization aid the school financially, but it held informative sessions each month, including Career Night and Back To School Night.

This organization has fostered a stable relationship between the parents, teachers, and students of Annandale High School.
